

## **I Wanna Hold You (4:35)**

**(Hillbilly Hämpi)**

**I woke up this morning and I don't know why  
My baby's gone, please let me also die  
See no end on this sad and lonely road  
I've lost everything cause the Lord has called you home**

**Every night in my dreams you're with me  
You take me by the hand and whisper just follow me  
And we walk through the light hand in hand  
And we walk hand in hand 'till the end**

*I wanna hold you, I wanna hold you  
I wanna hold you, yeah just one more time  
I wanna hold you, I wanna hold you  
And feel your soft and tender body close to mine*

**I can't eat anything, I can't go out for work  
In my fantasy I wanna be Captain Kirk  
I say Scotty beam me up to the stars up above  
So I can stay in heaven with my love**

*I wanna hold you, I wanna hold you  
I wanna hold you, yeah just one more time  
I wanna hold you, I wanna hold you  
And feel your soft and tender body close to mine  
And my love for you will never ever die*
